EAGLE*PRINT CRIMINAL LIVE SCAN

Protected by a rugged steel cabinet, Eagle*Advantage Criminal Live Scan captures full tenprints quickly and easily. The fingerprint capture records are then stored in NIST-compliant format for upload to AFIS (Automated Fingerprint Identification System).

EAGLE*PRINT APPLICANT LIVE SCAN

EAS Applicant Live Scan offers the same features as Criminal Live Scan in convenient desktop and portable versions. Applicant Live Scan delivers secure and reliable results in the office or on the go.

EAGLE*STORE & FORWARD

Eagle*Advantage Store & Forward allows multiple network and remote workstations to submit records to the Store & Forward workstation. The Administrator then uploads all records to AFIS, and distributes the results and alerts. The entire process is centralized, secure, and compliant, saving you time and expense.
