**Eagle\*NET** is a web-based investigative tool designed to simplify inter-agency data sharing. You can easily share up-to-date information with other law enforcement agencies throughout the Eagle\*NET network. With Eagle\*NET, security is a top priority. Agency data is encrypted by using SSL (https), which prevents data from being viewed by anyone during the transfer process. A unique Eagle\*NET search feature is PSAN – Persistent Search with Active Notification, which allows users to repeat the search automatically.

Eagle Advantage law enforcement software is fully integrated and provides easy access to information such as:

- Arrest reports
- Warrants
- Incident / Accident reports
- Citations / Traffic tickets
- Pawn records
- Pawn ticket entry
- Impounds
- Sex Offender Registry

*Call Eagle Advantage Solutions to learn more about Eagle\*NET, or visit our website.*
