RECORDS MANAGEMENT SOFTWARE (RMS)

Advanced software system for managing law enforcement agencies.

The **Eagle*Advantage Records Management System (RMS)** is one of the most powerful public safety software solutions on the market today. Eagle*Advantage RMS provides secure and reliable information throughout your agency. Multiple security levels control authorized user access, and continual audit trails protect against unauthorized access. Captured data meets all state and federal reporting requirements, and items such as stolen property are automatically crosschecked against existing RMS records. The Eagle Advantage RMS system includes all required hardware and software interfaces, and it's easily expandable to meet your agency's long-term needs.

RMS Modules

• RMS Records - People, Incidents, Receivables/Payments, Investigations, Evidence, standard and custom reports, and much more

• RMS Investigations - Case Management, related records, Evidence Tracking, Field Interviews

• RMS Administration - Personnel Records, Fleet Management, Audits, Budgets/Voucher

• RMS Internal Affairs - Case Management, search utilities

Call Eagle Advantage today to learn more about our Records Management System, or visit our website.
