

JAIL MANAGEMENT SOFTWARE (JMS)

Advanced software system for managing jail facilities.

Data management is key to a safe and efficient jail, and **Eagle*Advantage Jail Management System (JMS)** is the ideal solution. Our fully integrated software tracks inmates from intake through release. Eagle*Advantage JMS is fully integrated with our Records Management System (RMS), so once an inmate's identity is verified, jail personnel can easily access all related records. EAS also provides a link on your website for inmate lookup, which reduces phone calls to the jail.

JMS Modules

- Arrest Processing & Maintenance
- Banking
- Medication Schedule & Log
- Medical / Dental Records
- Visitation
- Inmate Tracking & Activity
